## To Our Members

In presenting to our members this prize list for the thirteenth annual fair, the directors would kindly urge every member to peruse its pages carefully, with a view to competing in one or more of hundreds of events. Especially would the directors invite the farmers to bring in entries in the stock section, and thus encourage the raising of first class stock in our district. Prizes have been increased in some classes, and a large list of Special Prizes should appeal to the progressive farmers.

The fair will be held on August 5th and 6th and you are invited to come and make this a banner Fair, and the best in the history of the Society.

## Baby Clinic

Arrangements have been made with the Provincial Department of Public Health to have a Baby Clinic conducted during the days of the Fair. The children will be weighed, and measured and given a complete physical examination, and any defect found will be pointed out to the mothers, and recommendations made as to what should be done to overcome any defects. A copy of the score card will be sent to the parents along with a certificate stating the percentage obtained by each child. Only children up to school age will be examined.

Every apparently well child should have a medical examination at least when about one year old, another on entering school and another on leaving school. If this system were universally adopted no adult should suffer from defects which might have been remedied in childhood.

## PURE BRED SIRE AREA ESTABLISH YOUR MUNICIPALITY AS A

The Saskatchewan Pure Bred Sire Areas Act, which came into force on May 1927, is the most advanced legislation passed by any province in the Dominion, as it prohibits the keeping of scrub sires in any Pure Bred Sire Area.

Any municipality wishing to be established as a Pure Bred Sire Area must fulfill three conditions:

(a) Have a resolution passed by the municipal council asking for the establishment of such an Area.

(b) Secure the signatures of a majority of the resident ratepayers to a petition asking for the establishment of this Area.

(c) The approval of the Minister of Agriculture must be secured.

The municipal area will then be gazetted as a Pure Bred Sire Area and all scrub sires within its boundaries must be castrated or slaughtered.

Later on, if so requested by the municipal council, all pure bred sires will be examined by expert examiners and graded by the Live Stock Sire Licensing Board. It is felt that the passing of this Act will have a far-reaching effect in improving the quality of live stock in the province.

Assist your own municipality in a sign-up campaign to eliminate the inferior sire, particularly the scrub bull.

Pure bred bulls can be purchased from the Saskatchewan Department of Agriculture by bona fide Saskatchewan farmers who are recommended by their municipal officers, on credit terms, on payment of 25% or 50% of the purchase price in cash, under the terms of the Live Stock Purchasing and Sale Act, balance payable November 1, 1929 and November 1, 1930, respectively, with interest at 6%. For application forms apply to the Live Stock Commissioner, Regina, Sask.
